

## LIMITED FIVE-YEAR WARRANTY

### Limited Warranties

Doors, drawer fronts, moldings, and accessories, manufactured by Lindsey Doors are warranted to the customer against defects occurring in the manufacturing process, subject to the terms and conditions as stated in this Warranty certificate. Lindsey Doors also guarantees its Thermo Foil products against delimitation, irregular surface discoloration, warpage or twisting for a period of five (5) years from the date of purchase. The warranty only covers defects as specified herein and does not include defects or damages attributable to misuse or normal surface weathering, or defects or damages caused by accident or fire or other casualty or acts of God, or any other causes of occurrences beyond the manufacturer's control. The exclusive remedial action provided for the customer hereunder shall be repair, restoration, replacement or return and refund of the products manufactured by Lindsey Doors found to be defective.

The replacement of new materials for those which may be defective may result in a color variance in comparison to the originally installed Lindsey products due to style and color changes by RTF (Rigid Thermo Foil) manufactures and is not indicative of a defect. The manufacturer reserves the right to substitute such RTF colors as are then being manufactured and is only obligated to match color and quality with such products as it is manufacturing at the time of replacement.

### What Lindsey Doors will do to correct problems.

If the manufacturing by Lindsey Doors of a product causes product delimitation, yellowing, discoloration, warpage or twisting under ordinary wear and conditions (and is not otherwise excluded for coverage), we will repair or replace the warranted components at the following charges for material: Material will be covered at the net invoice price of the doors as sold by Lindsey Doors.
